Chennai, Tamilnadu

### Skills

Leadership 100%

Management 100%

Communication 100%

Problem- solving 100%

Time- management 80%

### Achievements & Awards

BEC certified

Cash award for lpg gas detection

### Language

Tamil

Telugu

English

### Interests

Tennis

Music

### OBJECTIVE

I AM LEENA MOHAN, SO CONTENTED TO HAVE YOU HERE. YOU ARE ON THE RESUME OF A THICK-SKINNED GIRL WITH HER OWN DISCIPLINE, PASSION AND DETERMINATION TO HER WORK WHO ABSOLUTELY BELIEVE IN HARD WORK. MY ACCOMPLISHMENTS WILL BE A PROOF OF IT. I ALWAYS TRY TO BE THAT ONE GIRL WHO COMPLETES WHAT SHE STARTS.

### EDUCATION

Panimalar engineering college 2017-2021  
BE - ECE

Velammal matriculation higher secondary school 2011-2017  
Higher secondary

### PROJECTS

#### Lpg gas detection

My project is very simple and available at very cheap cost . Jus with two simple integrated circuits you can sense the gas leakage and it alarms you through play back voice and the glow of LED, finally switching on the exhaust fan by itself. It saves lives of many people . I even decided to fabricate more on this by GSM's i.e the message reaches the owner as soon as possible .

#### Smart vehicle

This is completely based on the road rules and safety . It replaces so many procedures on the verifications of documentations and ensures safety of every lives by providing digital checks on ur every drive .

#### Traffic lights controller

Controlling the traffic signals using micro controller.

#### Obstacles detection robot

This is absolutely a app based device

### INTERNSHIPS

Listening to people

## Activities

Blog writer

Public speaking

Debater

Seminar lead

Team lead

☒ Embedded systems with IOT at NSIC (National Small Industries Corporation Limited).

☒ Robotics

☒ International Embedded System Design at Top Engineers.

---

## WORKSHOPS

☒ Design principles awareness & trends at Madrasters

☒ PCB design & fabrication

☒ Android development

☒ Robots building workshop
